

The lands controlled by the Arabs (green) are shrinking

Israel

Now all of you can see (I hope), since the same enemies are also coming to your doorsteps, that Israel is surrounded on all sides by enemies, the type of Hezbollah, Hamas and Isis, which in a few kilometers could invade Israel causing millions of deaths in a few hours. I copy what wrote an expert for the defense of Israel :

"Israel's security depends on its retaining defensible borders. This means Maintaining control over key areas of Judea and Samaria and Certainly over an undivided Jerusalem ... Also This is why it is crucial for Israel to control the strategically vital Jordan Valley. If it does not do so, the situation along the Jordan border may become similar to that of the Gaza-Egyptian border ...

Safeguarding Israel's vital security requirements is the only path to a viable and durable peace ... This includes defensible borders, in demilitarized Palestinian entity, control of a unified airspace with Judea and Samaria, electromagnetic communications

frequency security. - Lt.-January (Res.) Moshe "Bogie" Ya'alon, Former Defense Minister, and IDF Chief-of-Staff, 2014. "

For me the blame for what is happening is not of Israel, but of his enemies.

Look how many Jewish refugees came to Israel from surrounding Arab countries:

Jewish Refugees in the Arab World

Very often the exodus of the Jews came after bloody pogroms, where thousands of Jewish families have been eliminated.

The Arabic proverb says : *has shrunk in front of us the Earth, which was once wide.*

But do not forget what said Judah Halevi: *there is no port in East or West where we can find peace. If wins Ishmael (the Arabs) or win the Edomites (the Christians) my fate remains the same: suffering.*

If after being persecuted by all European countries, after being nearly wiped out in Germany and in Russia, after being persecuted and driven out of all the Arab countries, we deny them the piece of land that belonged to their ancestors, before the diaspora caused by the Romans, where do we put them?
